

Vipul Kumar Singh

(+91) 7764059016 | vipulkumarbhore@gmail.com | Pune, Maharashtra

Summary

As a software engineer with expertise in **Android, Flutter, and web development, encompassing testing as well**, my experience extends to multiple platforms. I am currently **interning as a full-stack developer at Pisyst Pvt Ltd in Pune**, actively contributing to the development of robust cross-platform applications. The ongoing project focuses on creating a dynamic frontend and REST APIs for an application that provides users with valuable advice.

Skills

Software Testing, Flutter Developer, Android App Developer, Web Development, OOPS, DBMS

Programming Languages

C++, Java, Flutter(Dart), React Native, JavaScript & ReactJs, , SQL, Rest Api's

Education

MIT ADT UNIVERSITY | Pune, Maharashtra

Information Technology | 08/2023

Highly motivated IT graduate with a strong academic record (CGPA: 7.29) and expertise in Android development, Flutter development, and web development.

Mento Meet — Android App(Using Java)

Our application provides a seamless solution for college mentors/professors and students, streamlining meetings and granting convenient access to parent information, thereby improving their overall experience. It effectively addresses the challenges faced by mentors/professors and students, saving \$350 in development expenses, time, and manpower resources.

Health Coach - Web App(Using 'Reactjs & Api's')

Created an innovative health coaching platform utilizing **React.js and APIs**, empowering users to effortlessly access customized **workout routines, nutritional guidance, and comprehensive workout tracking** for a holistic approach to wellness.

Crop Dev - (Flutter(dart) & Api's with its test-cases)

Our project leverages technology and data to **assist farmers with essential crop information, including suitable seasons, soil types, and water requirements**. By empowering farmers with knowledge, we aim to enhance their decision-making abilities and improve agricultural productivity. In the project, I focused on user interface development, database management, API integration, and creating comprehensive test cases.

Languages

Hindi, English

Certificates

NPTEL (PYTHON FOR DATA SCIENCE), Internshala Machine learning (Training) , Android App Development(JAVA) By Edufebrica, Trishta Global (Completed Software Testing Training)

Hobbies

Reading books(Based on spiritual personality), Cricket, Meditation
